

Poster #	Presenter	Title
P013	Aaberg, Oddveig	The impact of team leader's communication on team performance in ad hoc teams
P045	Akeren, Inga	Development and maintenance of critical care nurses' clinical competence in ECMO therapy in a low patient volume setting
P012	Alastalo, Mika	Developing an online course to support nurses' patient observation skills in intensive care units
P007	Almerud , Sofia	Care of children in high-tech environments from the child's, the parent's and the caregiver's perspectives
P088	Alreshidi, Nawaf	Advanced Cardiovascular Life Support knowledge assessment among emergency nurses in the Hail region in Saudi Arabia using the Dreyfus Model
P008	Alrø, Anette Bjerregaard	Patients' experiences of cognitive impairment following critical illness treated in an intensive care unit. A scoping review
P034	Arad, Dana	Nurses' Experience during the October 7th Attack: Contributing Factors to Resilience
P039	Arad, Dana	The public's perceptions of patient safety in healthcare: a cross-sectional randomized study
P076	Ashkenazy, Orly	The use of Amantadine IV to improve arousal in patients following prolonged sedation and ventilation - Case Study
P062	Ashkenazy, Shelly	The Cycle of Care: Analyzing readmissions to the ICU – A retrospective study
P063	Asimakopoulou, Evanthia	The impact of ICU delirium management on sustainability: The case of the Liberation (A-F) bundle
P023	Aspis, Osnat	The EyeCon system – a novel EEG/EMG-based system for the rehabilitation of communication in the unconscious ICU patient

P015	Bekman, Nikol	Enhancing Nursing Students' Competence in Sexual Health Assessment in Intensive Care: Evaluation of an Educational Workshop
P001	Benjaminsen, Anita	Medical technical equipment in the ICU: Organizing and establishing plans for systematic training and retraining of ICU staff nurses
P077	Bogoevska Miteva, Zaneta	Improving the quality of nursing care through digitalization
P038	Bohart, Søs	Patient- and family-centered care in adult ICU (FAM-ICU): A feasibility study
P050	Bruun, Camilla R.L.	Implementation of an App-Based Competency Development Portfolio in Intensive Care Nursing
P097	Cachón Perez, José Miguel	Exploring the Impact of Escape Room Simulations on Nursing Students' Skills in Intensive Care Settings
P089	Cerela-Boltunova, Olga	Adaptation of the Nursing Activities Score in Latvia
P093	Černi, Andrej	Volatile anesthetics in intensive care units
P024	Chausa Weitman, Cernica	Anti-Bacterial Spa Treatment for Complex Wounds in ICU units
P101	Chen, Ssu Hua	Improve the rate of achieving the required basic caloric intake for traumatic brain injury patients
P094	Chen, Yiting	Holistic Interdisciplinary Care for a Patient with Intracerebral Hemorrhage Caused by Traumatic Brain Injury
P027	Chevalier, Sabrina	Advanced practice nurse in intensive care: challenges and perceptions in French-speaking Belgium
P051	Collet, Marie	Cognitive rehabilitation interventions for patients in the Intensive Care Unit – a systematic integrative review

P092	Dragosev janjic, Gordana	Assesment of patients anxiety and need for anesthesia related information in the preoperative period
P090	Dreyer, Pia	Involving and educating adult intubated and thracheostomized patients in the ICU using a 3D-printed model
P041	Eklind, Sara	Users' perceptions of electronic diaries in healthcare settings. A scoping review
P106	El Riz, Anna	Qualitative inquiry into violence experienced by emergency room nurses in the Republic of Cyprus
P107	El Riz, Anna	Violence against nurses employed in the emergency department of public hospitals: A descriptive cross-sectional study in Cyprus
P035	Enqvist, Angelica	Improve patient's conditions for recovery after intensive care
P054	Eriksson, Anna	Development process and initial psychometric evaluation of a questionnaire for quality of recovery after intensive care
P102	Förars, Charlotte	Quality improvement for safe transport of intensive Care Patient during MRI examination
P020	Frivold, Gro	Supporting children and adolescents as relatives in Intensive Care Units: Experiences of Nurses with a Child Welfare Role
P060	Furmanov, Alexander	Nursing driving protocol for weaning Brain injured patients from Mechanical Ventilation after Tracheostomy
P073	Gallani, Maria Cecilia	Lessons from the Lived Experience of COVID-19 ICU Patients: Insights for Enhancing Patient-Centered Care
P057	Geijer, Sebastian	Sepsis, signs and symptoms in general surgery patients
P011	Gravante, Francesco	Quality of life of ICU survivors with PICS after discharge. A review of the literature

P055	Hansen, Siri	Improving cooperation in Multidisciplinary teams, a quality improvement project
P056	Hansen, Siri	Post-Intensive Care Outpatient Clinic, a quality improvement project
P044	Hayek, Naela	Shaping the Future: Transformational Leadership in Nursing
P061	Hoej, Birgitte	Clinical knowledge shared by and for Intensive Care Nurses
P006	Holm, Anna	Non-pharmacological interventions to support the cognitive rehabilitation of patients admitted to the intensive care unit: An umbrella review
P005	Holm, Anna	Cognitive impairment in critically ill patients and former critically ill patients: A concept analysis
P066	Homolova , Barbora	Interpretation of the Arterial Waveform in Intensive Care Nursing
P067	Hylén, Mia	Developing interprofessional team competency training for early speaking valve intervention within the intensive care in Sweden
P100	Jakobsen, Gitte Hohwü	Interprofessional Team Based Bedside Education in the ICU
P043	Juda, Malgorzata	The influence of stress level on the emotional state of nurses in the aspect of the occurrence of cardiac arrest.
P026	Kamal , Khaled	Progress and challenges in the treatment of cardiac amyloidosis in ICCU.
P068	Karlsen , Marte-Marie	A narrative approach to understanding patients' experiences of being awake and on mechanical ventilation
P010	Käthe, Meyer	Relatives' and ICU Personnel's Perspectives of Care in Organ Donation: Protocol of a Multiple Methods Study

P080	Kokko, Anne	Ensuring Competency in Medical Device Usage: An Online Course Supporting Skills Verification
P053	Kolpak, Orly	Preparing for mass casualties by training ward nurses to work in ICU
P070	Kwiecien-Jagus, Katarzyna	Multifactorial analysis of medication error in Polish hospitals with different referral levels – a cross-sectional survey
P058	Levana Jakobsen, Levana	Documentation of the outbreak of the casualty War from the perspective of intensive care nurse leaders in Israel memory preservation
P032	Licht, Natalya	Gender differences in the effect of shift work on ICU and inpatient nurses' marital satisfaction
P098	Longo, Donato	The role of the Donation Coordinator Nurse in enhancing the organ and tissue donation process
P003	Loodus, Reta	The Guidelines of Practice for Intensive Care Nurses to Prevent Post Intensive Care Syndrome in Adult Patients
P081	Maamoen, Maamoen	Turnover intention in intensive care – Impact of work environmental factors and moral challenges
P021	Maoz, Elena	Social media usage and attitudes among nurses: Exploring personal, family, and patient health domains
P047	Masci, Silvia	Translation, cultural adaptation and validation in Italian language of the dkt-icn-ita (delirium knowledge test) for intensive care nurses: preliminary data
P042	Mazic, Matej	Achieving inspiratory tidal volumes during continuous chest compressions with two different mechanical devices during resuscitation
P018	Méhay, Daisy	Efficacy and safety of a repositioning schedule intervention on the incidence of pressure injury in the intensive care unit
P085	Mendes, Anabela	Family-centered nursing care: Meeting information needs in intensive care

P033	Meucci, Beatrice	Dimensions of Post-Intensive Care Syndrome (PICS)
P059	Meucci, Beatrice	Impact of critical illness on ICU family members: a Phenomenological Study
P040	Mortensen, Camilla Bekker	Long-Term Cognitive Function in ICU Patients with Delirium: Haloperidol vs. Placebo Treatment
P009	Myrzell , Karolina	Factors that affect patient safety in intrahospital transport of critically ill patients
P052	Nielsen, Anne Højager	Scandinavian healthcare professionals' perceptions of early ICU rehabilitation – So much more than early mobility
P036	Onrust, Marisa	Five-year survival and quality of life after ECMO treatment; a prospective cohort study in the Netherlands
P031	Orinovsky , Ira	Pioneering Cardiac Education. Nurturing Innovation Where Nurses and Chatbots Converge
P048	Orinovsky, Ira	From acute cardiac failure treatment to palliative care: changing treatment paradigm in ICCU
P049	Orinovsky, Ira	Early nursing education with STEMI patients before ICCU discharge
P071	Paquet, Edouard	Key Stakeholders' Perceptions of a Healing Environment in Intensive Care Units: A Multiple Case Study Protocol
P072	Paquet, Edouard	Promoting a Healing Environment in Intensive Care Units: Creating a Framework to Study Intensive Care Units' Material Environments
P046	Pellegatta, Matteo	Pneumatics of the NIV Face Mask in CPAP and PSV: How different combinations of filters impact its performance
P075	Pelz, Sabrina	Between Survival and Dying - Chronic Critical Illness in intensive care medicine.

P022	Raanan, OFRA	Medication optimization in patients with systolic heart failure undergoing remote care management program: a randomized clinical trial
P002	Rasi, Matias	Critical care nurses' competence in mentoring students in intensive care units—A cross-sectional study
P017	Raurell-Torreda, Marta	Intensive care unit nurses and adolescent donation and transplantation training. Scoping review
P086	Robleda, Gemma	Efficacy and Safety of Pupilometry as an Objective Measurement of Nociception in Critically Ill Patients
P014	Rosenmay, Linda Legaard	“Compassion Cultivating Training, is to serve those who serve us”
P019	Rosenqvist, Johanna	Spoken and unspoken touch - the perspectives from patients, relatives and healthcare professionals in an intensive care unit
P078	Saltnes-Lillegård, Christin	Differences in Demographic and Clinical Factors According to Symptoms in ICU Patients: A Subgroup Analysis
P104	Shatilova, Alina	Principles for Maintaining the Physiological Circadian Rhythm in Intensive Care Patients at North Estonia Medical Center
P082	Sheble, Siham	Pulmonary embolism
P084	Sheble, Siham	Brugada Syndrome - A lethal condition.
P083	Sheble, Siham	Interventional Radiology and the Relationship with Intensive Care Treatment
P095	Shih, Meng Chen	Improving the Blood Collection Process and Error Rate for Hospitalized Patients Using Failure Mode and Effects Analysis
P037	Slettmyr, Anna	Fight or flight - lived experience of ICU nurses' course towards taking the decision to resign following the COVID-19 pandemic

P065	Stojaković, Nataša	Relationship between EuroSCORE and nursing workload in cardiac postoperative ICU after cardiac surgery
P103	Tenessa, Giuseppe	Mapping Italian ICUs Humanization of Care: the HumanITA-ICUs project
P099	Thomsen, Thordis	Nutritional gap after transfer from the intensive care unit to a general ward - A retrospective quality assurance study
P004	Trotta, Francesca	Impact of critical illness on Quality of Life of the ICU Survivor-Family Member dyad: a conceptual framework and longitudinal protocol
P079	van IJzeren, Daan	Extubation, crafting the right moment
P025	van Limpt, Geertje	Methods to Measure Workload of ICU Healthcare Professionals – protocol for a scoping review
P028	van Mol, Margo	Mapping digital health interventions which support recovery in intensive care patients and their family members: A scoping review
P029	van Mol, Margo	Digital post-intensive care support for patients and their relatives: A comparative cross-country survey study
P030	van Mol, Margo	Perspectives of critical care survivors on digital follow-up service: international focus group interviews
P016	Via-Clavero, Gemma	Reliability and level of agreement between manual pupil observation versus automated infrared pupillometry in neurocritical care patients
P064	Weisbord, Irit	Iron Sword War vs. COVID-19: A Comparative Analysis of Intensive Care Nurse Function and Quality of Care Factors
P069	Xythalis, Dimitrios	Diagnostic accuracy of SOFA and qSOFA combining with biomarkers in the detection of sepsis in emergency department.
P074	Żuratyński, Przemysław	Knowledge of ICU personnel about AED and its role according to the 2021 ERC Resuscitation Guidelines
